Construction of R Tank
Chemmaryapatna

Continuation Sheet | File No / Current No | Page

From Hunter D C Hassan Dist
No. DE/C&B/80/b/43-4 dt 4 9 43
Reference above - the sum of Rs 6000/-
being the estimated cost for the
construction of a R C Tank
at Chemmaryapatna may be met
by grant-in-aid as an outright grant-
1) Govt Lr No dt 15 4 43, the revised
estimate for Rs 43,140/- for the water
supply scheme at Chemmaryapatna was
sanctioned. The cost of the scheme was
agreed to be met by Govt and the local
fund in equal proportions
2) Now it has been found necessary
by the Executive Engineer to construct a
RCC tank also cost of Rs 6000/- for
the efficient supply of water at the place
3) He states that the financial
position of the local fund does not
permit for their contribution towards the
water supply scheme of the place and
has recommended to meet the
entire cost from out of Govt grants
as subsidy for undertaking
4) The request of the
DC Hassan dt 8/9/43 for an
outright grant of Rs 6000/- as a
special case for the Chemmaryapatna
town Well for the construction of a

R.C.C tank is for orders of Sanctioned at will be met out of the Water Supply grants during the current year

5) From the Sanitary Engineers letter sent as an enclosure it is seen that the R.C.C tanks is also stated necessary for the efficient water supply for the town & that the required Cement & steel would be available

6) For orders.
Law Secy
8/9/43

7) May be sanctioned as it is an absolute necessity. The amount Rs 8000/- may be met from Head W.S Grants
Mudaliar
8-9-43

8) I think the Municipality has to bear half of this

No. M I C 801/43 62 43-5

Office of the Deputy Commissioner,
Hassan District,
Dated Hassan, the 4th September 43

From

N S Hiranmayya, Esq , M.A.,
Deputy Commissioner, Hassan District.

To

C. Narayanaswamy Naidu, Esq , B.A , B.L ,
Secretary to Government, Law Department,
Bangalore

Sir,

Re Water supply scheme to Channarayapatna Town.

In enclosing herewith a copy of letter No 274 dated the 30th August 1943 received from the Sanitary Engineer, Bangalore on the above subject, I have the honour to state that all the sanctioned works in connection with the said scheme are almost complete and water supply to the town is likely to be opened within a month and a half As stated by the Sanitary Engineer, in his aforesaid letter, an R C C tank is absolutely necessary for efficient water supply to the town and the construction of the same is estimated to cost about Rs.6000/-.

Channarayapatna Municipality is a minor one and its financial position does not permit any further contribution towards the water supply scheme In spite of its small size and meagre resources it has already paid up its full quota so far and I request that this fact may be taken into account in deciding on the present request of the Municipality It has absolutely no funds now to meet any portion of the cost of R C.C tank

In the circumstances, I request that Government may be pleased to meet the entire cost of the proposed tank as an outright grant as a special case There is a great dearth for water in the town which has been particularly severe this year and I request therefore that very early orders of Government may be communicated

I have the honour to be,
Sir,
Your most obedient servant,

Deputy Commissioner,
Hassan District.

6

Letter No.274 dated the 30th August 1943 from the Sanitary Engineer, Bangalore to the Deputy Commissioner, Hassan District.

Channarayapatna Water Supply.

I have the honour to inform you that in the revised estimate sanctioned by Government in their order No.L 9668-71/M1 71-41-23 dated 27-3-43 for the above town water supply, there is no provision for an R.C.C. tank. This provision, though it was contemplated at the time of preparation of the estimate, was not made in the estimate submitted for sanction for two reasons (i) non-availability of cement and steel for taking up the work and (ii) heavy cost involved in providing for the same, which it was thought the Municipality may not be able to afford Now that the pumping station and the laying of the mains and submains in the town have all been completed and the water supply to the town is likely to be opened within the course of about 2 months, I consider it desirable to think of ways and means for taking up of the R C C tank construction work also. This will add to the efficiency of the town water supply The estimated provision in the office draft of the estimate prepared in my office is Rs 3000/- Taking into consideration the increased cost of cement it may come up to Rs.6,000/- I request you to kindly take up this question and see whether Government cannot be approached with a view to make an outright grant for the construction of the R C C. tank, considering the fact that Channarayapatna Municipality has already paid up its full quota for the present estimate now under execution and also considering the inordinately high prices of machinery and pipes etc , for which they have contributed On hearing from you in this matter, I will be taking necessary further action to forward the estimate to you for countersignature and taking up the work thereafter
